

Daily COVID-19 Health Screening Checklist for CLUB MEMBERS

We ask that you screen your child **daily** before coming to Club. All Club members will be receive a forehead temperature scan upon arrival to Club. Any youth with a temperature of 100.4 degrees Fahrenheit or higher will not be permitted to participate in the program and will be instructed to remain at home and contact their healthcare provider.

PART 1	YES	NO
Has your child been in close contact* with anyone who tested positive for COVID-19 in the last 14 days?		
Has anyone in your child’s household been in close contact* with anyone who tested positive for COVID-19 in the last 14 days AND experiencing symptoms?		
Has your child been tested positive or been diagnosed with COVID-19 by a healthcare provider in the last 10 days?		
Has your child developed any of the following symptoms in the past 24 hours?		
⇒ Cough (for Club members with chronic allergic/asthmatic cough, a change in their baseline)		
⇒ Shortness of breath/trouble breathing		
⇒ New loss of sense of taste or smell		

If YES to any question in Part 1, Club member is NOT eligible to come to Club.

If NO to all questions in Part 1, proceed to Part 2.

PART 2: Has your child developed any of the following symptoms in the past 24 hours?					
	YES	NO		YES	NO
⇒ Sore throat			⇒ Headache		
⇒ Unusual fatigue			⇒ Muscle/body aches		
⇒ Nausea, vomiting or diarrhea**			⇒ Runny nose or nasal congestion		

If YES to 2 or MORE questions in Part 2, Club member is NOT eligible to come to Club.

If YES to 0 or 1 questions in Part 2, child may attend Club.

STAY HOME

Youth is not eligible to return to Club until 10 days have passed OR a Negative PCR COVID-19 test result is received AND youth is 24 hours symptom free.

COME TO CLUB

Youth should wash (or sanitize) their hands before entering the building or having contact with other youth or staff.

*A person is considered to be in close contact with a COVID-19 positive person if any of the following are true: (1) they were within 6 feet of a positive person for more than 15 minutes total in a day, (2) had physical contact with the person, (3) had direct contact with the respiratory secretions of the person.
 **Fever, vomiting, and diarrhea—alone or together—should exclude a child from Club. However, they do not necessarily indicate the need to test for COVID-19 or isolation.
